Acceptance of the Terms of Use

These terms of use are entered into by and between You (as defined below) and Ansys, Inc. (“**Ansys**,” “**we**,” or “**us**”). The following terms and conditions (“**Terms**”) govern your access to and use of the Ansys application marketplace, including any content, functionality, and services offered on or through the preceding (the “**Ansys Store**”), whether as a guest or a registered user. When used herein, “**You**” or “**you**” will be understood to mean (i) the person that is accessing the Ansys Store (the “**User**”) and (ii) where applicable, the company or legal entity on whose behalf the User is acting as an employee, consultant, agent, or other personnel (the “**Company**”).

Please read the Terms carefully before you start to use the Ansys Store. **By using the Ansys Store or by clicking to accept or agree to the Terms when this option is made available to you, you accept and agree to be bound and abide by these Terms.** If you do not want to agree to these Terms, you must not access or use the Ansys Store.

By using the Ansys Store, you represent and warrant that you, as a User, are capable of and authorized to: (i) accept the Terms in your individual capacity as a User, and (ii) where applicable, accept on behalf of and bind your Company to the Terms. If you do not meet the preceding requirements, you must not access or use the Ansys Store.

Changes to the Terms

We may revise and update these Terms from time to time in our sole discretion. All changes are effective immediately when we make them available, and apply to all access to and use of the Ansys Store thereafter.

Your continued use of the Ansys Store following the posting of revised Terms means that you accept and agree to the changes. You are expected to check this page from time to time so you are aware of any changes, as they are binding on you.

Purchases from Ansys Store

While using the Ansys Store you will have the capability to purchase the access and use of various content such as software applications, plugins, workflows, tools, models, and other materials (“**Licensed Content**”) that are made available on the Ansys Store by third party developers (each a “**Developer**”) and/or by Ansys itself. When you purchase Licensed Content from a Developer through the Ansys Store (a “**Third Party Content**”) that purchase will be subject to additional legal terms provided by that Developer (“**Third Party Content Terms**”). When you purchase Licensed Content from Ansys or any of its affiliates through the Ansys Store (an “**Ansys Content**”) that purchase will be subject to additional legal terms provided by Ansys or that affiliate (“**Ansys Content Terms**”). You accept these additional legal terms when you access the Licensed Content by, for example, downloading, installing, using, or otherwise receiving the Licensed Content, and these additional legal terms are accepted by you as a User and on behalf of your Company.

When you purchase Licensed Content that is described in the Ansys Store or in the applicable legal terms as having a finite time period for use, your right to use that Licensed Content will be limited to the time period that is described (a “**Finite License Term**”). When you purchase Licensed Content that is not associated with a Finite License Term, your right to use that Licensed Content will be perpetual (a “**Perpetual License Term**”). Violation of these Terms or any applicable Third Party Content Terms or Ansys Content Terms may result in the temporary suspension or permanent termination of a Finite License Term or Perpetual License Term.

Ansys is not responsible for providing maintenance or support for Third Party Content, and maintenance and support, if any, will be provided solely by the Developer according to the Third Party Content Terms.

Ansys does not provide any warranties or representations for Third Party Content, and warranties or representations, if any, will be provided solely by the Developer according to the Third Party Content Terms.

These Terms do not provide for, and expressly disclaim, any maintenance, support, or warranties for Ansys Content, and you must instead look to the Ansys Content Terms that are applicable to that particular Ansys Content.

Except as expressly permitted in Third Party Content Terms or Ansys Content Terms: (i) you will not distribute or make Licensed Content available or usable by more than one individual user at any time; (ii) you do not have the right to transfer, redistribute, or sublicense the Licensed Content to any party outside of your Company; and (iii) you will not modify, reverse engineer, disassemble, derive the source code of, or create derivative works of any Licensed Content.

Payments for Licensed Content; Payment Methods

Ansys may provide payment processing options for your purchase of Licensed Content from the Ansys Store. These payment processing options may be subject to additional third party payment processor terms that govern your use of a particular payment processor's tools or platforms, and you will accept and agree to abide by any such relevant payment processing terms when making a purchase. You are solely responsible for all payable amounts that are associated with any purchases you make on the Ansys Store.

You are responsible for any duties, customs fees, levies or other taxes and any related costs (excluding taxes on Developer's or Ansys' income) associated with your purchase of Licensed Content ("**Taxes**"), whether or not such Taxes are charged to you at the time that you pay for Licensed Content.

You may associate one or more payment methods with your Ansys Store account, and Ansys will charge your selected payment method for your purchases of Licensed Content made through the Ansys Store, including any applicable Taxes. If you have associated multiple payment methods with your Ansys Store account, you agree and authorize Ansys to charge any of those payment methods if your selected method initially or subsequently fails for any reason. If for any reason Ansys is unable to charge any payment method in association with a transaction, you will remain responsible for any uncollected amounts, and Ansys may at its discretion reverse or remove your access to the Licensed Content.

Licensed Content Availability; Defective Licensed Content

Once Licensed Content is accessible to you, you should promptly and thoroughly review and verify the functionality of that Licensed Content to ensure that it operates as described in the Ansys Store or related documentations, and notify the Licensed Content provider as soon as reasonably possible if your review notes any errors or defects.

Ansys will make your purchased Licensed Content available via the Ansys Store (i) for as long as Ansys has the right and capability to make that Licensed Content available to you, and (ii) in the case of Licensed Content associated with a Finite License Term, for the period of time associated with that Finite License Term. In rare cases Ansys may have to remove certain Licensed Content from the Ansys Store, such as where Ansys' rights to provide the content terminate, where Ansys determines that the Licensed Content is in breach of applicable legal terms, or where Ansys determines that the Licensed Content.
